

## *I Love You*

*You're such a special part of me  
as loving and caring as you can be.*

*You're everything that matters in my life  
you're all I ever need.*

*You're the one I turn to when I need somebody there,  
to laugh and talk with, to understand and care.*

*The one I need to have forever by my side.*

*The one I can depend on, in whom I can confide.*

*You're all I'll ever need to have a full and happy life.*

*I love you for your love for me, so constant and so true.*

*But most of all I love you just because you're you.*
