

## *I Love You, Mom*

*It would be nice if life didn't get  
quite so busy and I could see you  
as often as I'd like . . .*

*But in a way, Mom, you are  
with me every single day . . .*

*You're in my thoughts and in my heart.  
I hear the steady reassurance of your voice  
and feel the confidence that grew out of  
your encouragement and love.  
And part of me is always with you, Mom . . .  
thinking of you, loving you,  
and caring about you so much.*
