

## *A Mother*

*Her hands reach out to comfort when she hears the cry*

*Her gentle loving touch will wipe the tears all dry*

*Sacrificing sleep she'll stay up the whole night through*

*Her child is sick and hurting and tender loving care is due*

*Many chores completed are waiting again the next day*

*Her role often taken for granted until she is gone away*

*A mom is that beautiful lady with a mission from above*

*Living for her children in the image of God's love*
